

# MEET KAITLYN & BROOKLYN!

*Two sisters who are anything but average.*

Whether it's in the classroom, on the basketball court, or at the beach with friends, they live life to the fullest and they don't accept limits. Their vision is no exception.

Kaitlyn and Brooklyn are *nearsighted*, which means things far away look blurry. In the past, they tried glasses, but they would get lost, broken, and were impossible when playing sports. Contacts didn't work either. The sand from their favorite destination—the beach—made their contacts painful, and everyone knows you can't swim in contacts!

"It's Life Changing,  
very convenient and easy"

-Brooklyn

But everything changed the day their Optometrist—who also happens to be their Dad—told them about Paragon CRT®. **Contact lenses that correct your vision while you sleep?** It sounded impossible until they tried them. For the first time since they could remember, they experienced complete FREEDOM!!

**NO GLASSES. NO DAYTIME CONTACTS.**

SLEEP WITH YOUR  
PARAGON CRT® LENSES!

Correct your vision  
overnight!

Enjoy clear vision  
ALL DAY LONG!

*Sports, fun with friends,  
LIFE is better thanks to Paragon.*

Today Kaitlyn and Brooklyn know that CRT is the perfect fit for their active life – a life lived without limits.

"WOW, It's like watching  
a HD movie!"

- Kaitlyn ♡

My daughters Kaitlyn and Brooklyn are my life. Watching them grow up is so personally rewarding. To say my girls are active is an understatement; sports, school, friends, and traveling keep them beyond busy.

As their Optometrist, I never wanted their nearsightedness to limit them in any way. While my practice offers conventional treatments for nearsightedness, my girls are anything but conventional. That's why I fit them with Paragon CRT®. These contact lenses are FDA approved and safe for overnight wear. Also, clinical studies show that young patients wearing lenses like Paragon CRT® show increased self-confidence and self-esteem, enhanced social skills, and improved classroom performance. Who wouldn't want that for their child?

Imagine your children experiencing complete visual freedom during the day. Give your child the gift of a life without limitations

Dr. Gregory Y. Kame

Ask me if your child is a candidate for Paragon CRT®.
